Recommended. This was just challenging enough for me that I was able to keep moving forward staying challenged not getting bored, until I got to the slider puzzel. I hate slider puzzles. This one is a 16 square slider with the correct picture right next to the puzzle but I have not been able to complete it. From what I can tell I am three quarters of the way throught the game or more but may never finish. I did enjoy playing though up to this point, however may never purchase another game from this dev if I find that they have sliders.
