Well, i didnt play alot but i was searching a game like this! I also search a game which dont have automatic shooting and this game have all! The BEST shooting space retro on steam! U also unlock new ships! 10V10 u must buy it! :). i have played lots of games LIKE forge of gods, and having played it now, i would hazard a statement that all the other games were mimicing the master.

forge of gods is a tactical rpg/moba. unlike modern mobas however its not active style, its more of a pvp setup. you get guilds, you get guild wars, and on your own pvp style matches.

cons:there is a modicum of pay wall. HOWEVER!!!! since on the reddit forum ([reddit.com/r/FreeGamesOnSteam](https://www.reddit.com/r/FreeGamesOnSteam)) you can get paid dlc for free, and i have... so far 5 free. three of them came with premium gems. every day on facebook they give away monsters as well, and you get the ability to draw them based on how many friends have used your shared guy.

[this is all logistics... how is the gameplay?](#)

[PROS: gameplay is perfect. its a 2d flat field that moves left to right as you click advance. you can litearly move everyone around as many times as you want, and in some instances, you'll very quickly find that might be the only way to victory.](#)

[graphically its very cartoon 80's. you wont hate them. every design is nice. not overstated. not "HERE IS 200 GIRLS WITH\u2665\u2665\u2665\u2665\u2665\u2665BIGGER THAN THEY ACTUALLY CAN HANDLE" oh no no. there are females and they are drawn tastefully and a few have sex appeal. its always done tastefully and never over the top.](#)

[socially, this game's servers are NOT full of over entitled children. you can chat globally or with your guildies. guild wise i never found one not aggressive - but friendly. some will enforce donations, etc. just leave those and go to one that doesnt.](#)

[overall this has a bit of an old school rpg feel graphically. the enviroment isn't toxic. you can get gamepacks for free on reddit, and they give away monsters almost daily on their facebook page.](#)

[bottom line: if you like tactical games with drawing cards, you should check this out. i paid about 15 bucks and received tens of thousands of premium in game currency. and i get packs when i see them on reddit.com/r/freegamesonsteam and you should too. if you get into it, it has a story, it has EVERY way to upgrade your characters in game, you get your own castle to upgrade that will give you EVERY currency for free. daily and overall quests send you tons of diamonds, monsters, etc.](#)

[give it a shot. you might like it. its way better than any free to play games in this catagory. you can buy in game currency but theres figuratively tons of ways to get them free without paying a single thing.](#)

[WHY ARE YOU STILL HERE? ITS A SMALL DOWNLOAD DONT TAKE MY WORD ON IT GO CHECK IT OUT!](#)

[note: doesn't sync with the facebook/android versions.. It's an incredibly fun diversion from time to time! Would definitely recommend to fans of the old Interactive Buddy flash game.. Picked this up as I've wanted to see what a football game would be like in VR, the only one I've tried before was an old demo on my DK1 with Kinect hooked up to my PC where you got to take penaltys and it was decent for what it was but pretty simple and basic.](#)

[While in this game it's only headers and not full football it's still great fun. For the most part the ball reacts to your headers as you'd expect, you can put some force into it or just do a gentle nod for targets that are low down. I've even tried jumping up for a few headers and it worked, although I can see that ending badly for my ceiling.](#)

[Plenty of different levels too and seems like plenty to keep you going for a while. I'd have loved to have the option to be trying to win headers in an actual game and trying to beat a keeper but that's a minor niggle. You'll also probably do what I do everytime the ball bounces back and automatically try and kick it...additional sensors for your feet can't come soon enough.. This game is difficult.](#)

[Your hand will cramp up.](#)

[You have to continually press the fire button old school.](#)

[You can't redefine the keys despite it being a Unity game which has a facility to add that really easily in the launcher.](#)

I don't write reviews, but this game deserves it.

Its a short VR experiance but its one of the best I've seen so far here on steam, and definitely worth the \$10. The fact that this game was made by just one developer blows me away.

10V10!. Great addition to the fleet. the ♥♥♥♥ is this shet. It's quite a fun game, but there are quite a few bugs and mistakes which for such a simple game makes it really expensive if you are paying 5 quid. The "Dutch" flag in the game is actually the Russian flag, the Dutch is really bad so I switched back to English but for the rest I've been enjoying it so far. Simple yet fun, but in retrospect a bit too expensive for what you get.. The Metal Slug series is one of the most legendary arcade game series of all time and for good reason. Metal Slug 2 doesn't change things up too much from its direct predecessor, but it has a wide graphical variety in its levels as well as interesting boss fights. Minor bullet hell elements, non-stop mayhem.

Truly shines in co-op.

Fixed Loading Issue:

Thank you for all the feedback!

We managed to find the bug causing the game to hang on the logo and not load. It would appear only US/Canadian users were affected, as it was a date format issue.

Fixed 'Next' button not working on Team Name/Logo Selection:

We had a number of players from European regions experiencing an issue whereby they could not get past the Team Name/Logo Selection.

This was caused by a date formatting issue and has now been fixed in the latest update.

Sorry to those who experienced this, we hope you'll jump on to play bug free soon.

Thank you Managers!. **Volume Sliders are here! and more...:**

Hey Managers,

We listened to feedback and have made some awesome adjustments for the better. Here's what is in the latest update:

-
- Volume Sliders: adjust music and SFX simple sliders in the settings menu.
 - Narrative event tweaks: minor adjustment to the conversations to make it easier for players to see that the timeline is paused. Randomised the order of the choices too.
 - Minor bug fixes

To come: increasing the chances of more variety in conversations that pop up. It's been a bit repetitive and we're looking into it.

Thanks T.E.A.M!

Volume Sliders!
